INTRODUCTION

*A*bout SIS :

The SIS is an international, non-profit scientific organization devoted to the advancement of research in the areas of projective psychology, personality assessment, psychotherapy and mental health. Dedicated to the use of projective technique in the healing arts, one of our primary goals is the promotion of teaching, research and practice of the inkblot procedure, a projective assessment tool.

*A*bout 8th International Conference of SIS:

The 8th Conference of SIS is a reflection of our aim to reach Clinical Psychologists, Psychiatrists, Psychotherapists, Social Workers, Medical Professionals and Business Executive interested in the understanding and modification of human behavior. The conference brochure is attached and contains more detailed information.

*A*bout ITPA:

International Tele Psychological Association (ITPA) is a non profit, non-government organization focusing on creation, communication and application of tele-psychological knowledge to benefit people and improve their overall life standards and mental health. Tele-psychology is the provision of psychological services in expanding role of technology that may be useful in the practice of psychology which presents unique opportunities, considerations and challenges to the practice. The number of psychologists using technology in their practices is also fast increasing and there is an urgent need for a common platform to spread awareness and consolidate these specialized areas of behavioral services globally.

*A*bout Inaugural Conference of ITPA:

ITPA intends to organize multifarious events and activities from time to time including annual conferences. The first international conference is being designated as inaugural conference of ITPA in which the broad theme shall be mental measurement focusing on broad issues and perspectives related to psychometrics and related disciplines.

*A*bout ReFocus Foundation:

The ReFocus Foundation is a non-profit NGO providing a common platform for spreading awareness and knowledge concerning mental health issues as well as safety and security of children, women, weaker sections of society, students, teachers, parents as well as mentally challenged persons; marital and pre-marital education, parenting skills education advancing social learning and general awareness regarding healthy life styles and overall well-being.

Theme of the Conference

Mental Measurement - Advances and Challenges in Clinical & Non-Clinical Settings

Sub-Themes:

- ▶ Advances in Psychological Assessment
